**Subject:** public comment on federal register FW: we need to stop telling the world  
what to do and shut down this committee and get america on the straight and  
narrow which is not being done right now

this is far too expensive a committee for american taxpayers to continue to fund.  
it should be shut down for a moritorium period and the high priced help fired.  
what the world does with its kids is not america's govt business. our washington  
dc bureaucracy is so corrupt and so skanky that politicians would murder their  
moms for a dollar. our politicians in washington cant keep their grubby h ands off  
working kids - look at the intern scandal. so where does this govt get off telling  
other nations what to do. get out of that thinking please. focus on america. lets  
get america and washington dc clean and honest please. look at the agribusiness  
in america who imports foreign labor and then puts the cost of their foreign  
children into being paid for by general taxpayers. agribusiness takes advantatge  
of kids in america. shut down this committee and button our lips until we  
straighten out america. we have alot of problems in this country with dishonest  
politicians and skanky lobbyists in corrupt washington dc. it is not our business.
