

# Hawaii

Canada and Mexico are the top export markets for U.S. agriculture, totaling a combined \$40 billion in 2018. In fact, more than 28 percent of all U.S. farm and food exports went to our North American neighbors last year. The U.S.-Mexico-Canada Agreement, or USMCA, will make a good trade relationship even better, ensuring preferential market access for U.S. agricultural exporters and solidifying commitments to fair and science-based trade rules.

## Key Provisions

### Biotechnology

For the first time, the agreement specifically addresses agricultural biotechnology – including new technologies such as gene editing – to support innovation and reduce trade-distorting policies.

### Geographical Indications

The agreement institutes a more rigorous process for establishing geographical indications (GIs) and lays out additional factors to be considered in determining whether a term is a common name.

### Sanitary/Phytosanitary Measures

The agreement strengthens disciplines for science-based measures that protect human, animal, and plant health while improving the flow of trade.

### Beef

U.S. beef producers maintain access to a \$1.8 billion market that accounted for nearly 22% of 2018 exports.

### Fruits

The agreement updates origin rules for processed fruits to assure that preferences benefit U.S. producers.

### Dairy

America's dairy farmers will have new market opportunities in Canada for a wide variety of dairy products. Canada agrees to eliminate the Class 7 milk pricing program that allowed its farmers to undersell U.S. producers and will impose export surcharges on dairy products that exceed agreed thresholds.

### Pork

U.S. pork producers maintain access to two of their largest export markets, which combined totaled \$2.1 billion (32% of total exports) in 2018.

### Poultry and Eggs

U.S. poultry producers will have new access to Canada for chicken and eggs, and expanded access for turkey.

## Top U.S. Agricultural Exports to Canada and Mexico, 2018

- 1 Corn (\$3.4 billion)
- 2 Prepared Foods (\$2.6 billion)
- 3 Fresh Fruit (\$2.1 billion)
- 4 Pork & Pork Products (\$2.1 billion)
- 5 Dairy Products (\$2.0 billion)
- 6 Fresh Vegetables (\$2.0 billion)
- 7 Soybeans (\$2.0 billion)
- 8 Beef & Beef Products (\$1.8 billion)
- 9 Snack Foods (\$1.7 billion)
- 10 Poultry & Eggs (\$1.6 billion)
