**SUBJECT: List of Restricted Countries - Updated**

**TO: All Program Participants**

**Background**

The Foreign Agricultural Service (FAS) periodically publishes notices informing all participants in the Foreign Market Development Cooperator Program (FMD), the Market Access Program (MAP), the Quality Samples Program (QSP), the Technical Assistance for Specialty Crops Program (TASC), and the Emerging Markets Program (EMP) of economic and trade sanctions against targeted foreign countries based on foreign policy and national security goals. No activities funded under the FMD, MAP, QSP, TASC, or EMP may be conducted in any country that appears on this restricted list.

**Policy**

Commodity Credit Corporation funds may not be used for market development or export promotion activities in certain countries. Section 908(a)(1) of the Trade Sanctions Reform and Export Enhancement Act of 2000 states that, "No United States Government assistance, including United States foreign assistance, United States export assistance, and any United States credit or guarantees shall be available for exports to Cuba or for commercial exports to Iran, Libya, North Korea, or Sudan." In 2004, however, the President waived application of this provision to Libya. In addition, this provision does not apply to the Republic of South Sudan.

Expenditures on any private activities by program participants cannot be counted as contributions to CCC supported programs. Expenditure data should not appear on any FAS or CCC financial reports for these restricted countries.

**Effective Date**

MAP notice 10-003, FMD notice 10-002, QSP notice 10-001, TASC notice 10-001, and EMP notice 10-001 are superseded by this notice. This program notice is effective immediately.
